

# Injection Molding Capabilities

Revolutionizing the plastics industry by blending sustainability with innovation to redefine what's possible.

ISO 9000:9001 Certified

## Why Choose Us

### Wide Tonnage Range

Machines from 60 to 1450 tons for versatile manufacturing needs.

### Material Expertise

Capable of processing a broad range of resins, including advanced engineered materials.

### High Precision

ISO 9000/9001-compliant quality systems ensure consistent, high-quality output.

### Production Flexibility

Supports both high and low volume production runs for diverse applications.

## Our Services

### Machine Sizes

Tonnage (Metric)	# of IM Presses
0-99	13
100-199	22
200-299	21
300-399	11
400-499	5
500-599	7
600-699	1
700-799	3
800-899	1
1,000-1,099	3
1,400-1,499	1

### Custom & Secondary Processes

- Pad Printing
- Thermal Staking
- Hot Stamping
- Spin / Sonic Welding
- Secondary Assembly
- In Mold Labeling
- And More!

### Molding Techniques

- Horizontal Molding
- Vertical Molding
- Over Molding
- Scientific Molding - Coming Soon!

### Tooling Capabilities

- New Tooling Development
- Tooling Repairs & Revisions
- Preventative Maintenance
- Mold Flow Analysis
- Mold & Part Design
- CAD Analysis
